

SEVIS Transfer to UC Riverside

SEVIS TRANSFER INFORMATION

As an F1 student, the school that you are currently attending is in charge of your SEVIS record. To transfer to UCR, your current school will need to transfer (or “release”) your SEVIS record to the new school in order to issue your I-20. This transfer process must be initiated by the International Advisor (DSO) at your current school.

Your SEVIS transfer date should be between your graduation date/end of term at your current school and your term start date at the new school. To transfer, your DSO will need a copy of your admission letter to UC-Riverside and the school code, which is LOS214F00177000.

Step 1:

Contact your current DSO to decide on a date for the SEVIS transfer. Give them your UCR admission letter and the school code (LOS214F00177000).

Step 2:

Include the date your SEVIS record will be transferred to UCR and the transfer information in your I-20 Application Form.

Step 3:

Wait until the SEVIS transfer date. UCR cannot issue your I-20 until your record has been transferred.

Step 4:

Once your record is transferred and the I-20 is processed by UCR, you will receive the UCR I-20 through your UCR email address.

Step 5:

Your new UCR I-20 will say “Transfer Pending.” You can travel with this I-20 to re-enter the U.S. prior to your program start date

Step 6:

After check-in at UCR, your record will be registered and a new I-20 will be issued which states “Continued Attendance.” This I-20 can be used for travel multiple times with a valid travel signature.
